Other personal information:	South African nationality. Candidate is a Systems Engineering student holds a Bachelors degree., working as a freelance technician, doing mostly software. She is an introvert, yet has great interpersonal and communication skills. She is very versatile and can easily adapt to any environment. She is a very brave and confident person who likes to take calculated risks in life in general. Non-smoker. Reason for donating: I know a few people who do not have children at a very late age and would do anything to

	have them but simply cannot. Thankfully, these days we have advancements that enable people such as me to happily help those who cannot have children to bring love and also have a family, just like I do. I can only imagine the pain of not being able to conceive and the joy it gives me to assist those in that situation in beyond explanation.
Reproduction history:	One child and proven donor resulting in a pregnancy.
Views on religion and spirituality:	I am a Christian and I believe in God almighty in heaven. That is my religion. Spiritually, I believe that, giving superiority to God, one also has a connection with ancestors, whether you communicate with them or not, but recognise them as your carriers to this world.
