Why do you want to be an egg donor and if you had a message for your recipient what would it be?	In my profession, I speak and connect with woman every day and I have realised how common it is that woman struggle to fall pregnant. So one of the reasons I wanted to do this is because I want to help a family have what they desire. To even be a small part of that would be so amazing! My message to the recipient would be: I really hope my small act can change your life in a really big way!
How do you best describe yourself?	<p>I am a extrovert with a funky personality, I'm loud when I need to be and soft and gentle when I need to be. I can honestly say I love meeting new people and spending time with my close friends and family.</p> <p>Some weekends I'm up for a chilled day in bed with series and the next I can be hiking or having a braai with friends. I'm super relaxed, but I also like to plan. My house has spots for everything and is 80% of the time neat (always ready for someone to stop by haha). My hubby and I are always making goals and plans, as soon as we achieve them, we make new ones and we love it.</p> <p>I have never been extremely book smart but I can sure say i'm people/ life smart. I learn from those around me.</p> <p>My biggest motto in life is: Be kind, even if someone doesnt agree with your views, if you show kindness towards them, there is more than likely to be some common ground.</p>
