Light to non-smoker. Reason for Donating: Here's a heartfelt paragraph you can personalize: From the moment I learned about egg donation, I felt a deep calling to help families who are struggling to experience the joy of parenthood. I have been fortunate in my own health and fertility, and the idea that I could share that gift with someone who desperately longs to hold their own child moves me profoundly. Becoming an egg donor isn't a decision I've made lightly and it comes from a place of genuine compassion and a desire to make a meaningful difference in someone's life. I believe that every person who dreams of building a family deserves the chance to do so, and if I have the ability to help make that dream a reality, then choosing not to feels like a missed opportunity to do something truly beautiful.</p> |
| Reproduction history: | No children and no previous donations. |
| Views on religion and spirituality: | I am Christian. I am not as close to God as Id like to be but I try everyday |
