Why do you want to be an egg donor and if you had a message for your recipient what would it be?	My decision is influenced by a desire to help others, support family and friends, or contribute to medical research.
How do you best describe yourself?	I would describe myself as an empathetic and driven individual with a genuine passion for helping others. I thrive on meaningful connections and value honesty and kindness in all my relationships. Friends often describe me as a supportive and reliable person who is always ready to lend a listening ear or offer assistance when needed. I have a deep love for learning and am continually exploring new hobbies and interests. I enjoy reading, particularly fiction and psychology, which helps me understand diverse perspectives and human experiences. Outdoor activities like hiking and cycling also play a significant role in my life, as they provide a sense of peace and rejuvenation. One of my core values is making a positive impact in the lives of others, which is why I am drawn to the idea of contributing through egg donation. I believe in the importance of compassion and supporting those who face challenges, and I see this opportunity as a way to extend that support in a meaningful way. My aspirations include fostering a world where people can achieve their dreams and find joy despite the obstacles they may face. If I were describing myself to a friend, I would say that I am someone who values connection, growth, and making a difference. I am deeply passionate about contributing to the well-being of others and continuously striving to grow both personally and professionally.

If you had unlimited resources and could save one thing on earth what would it be?	If I had unlimited resources and could save one thing on Earth, I would choose to save biodiversity. The vast array of plant and animal species is crucial for the stability of ecosystems, the health of our planet, and the well-being of all living creatures. Protecting biodiversity helps maintain ecological balance, ensures the availability of resources for future generations, and supports the resilience of natural systems against climate change and other environmental

	threats. By preserving this rich tapestry of life, we safeguard the foundation of a healthy and thriving planet.
