Other personal information:	South African nationality, Basotho clan. Candidate is studying television and film production. Non-smoker. Reason for donating: Apart from needing some money to pay the remaining balance for my studies, I am very fond of children. I realise that some women do not have some of the means to have their own children due to circumstances. They would offer a child the warmest and most lovingest home that every child deserves to grow up and have. Some of us who are not yet ready to become parents should give this joy to another mom whom wants this opportunity to be a mom

	but cannot. A child is a gift from God and it should be nurtured each and every day and we have parents who want to be that to a child.
Reproduction history:	No children and no donations as yet.
Views on religion and spirituality:	Everyone is entitled to partake in any religion.
