Other personal information:	South African nationality, O+ blood group. Candidate is as an IT student. Her interests include music and reading. She is a fun loving, caring, friendly, shy and family oriented person. Her favourite subjects at school were maths and biology. She does not enjoy physical activities but loves any and all group activities. At school, she was part of the environmental club and the choir and played tennis. Non-smoker. Reason for donating: I want to help people who want to have children experience their dream, having experienced it myself I feel it is a beautiful journey and the unconditional

	love shared between a mother and her child is indescribable so it should really be experienced. I have a son, he's one now and I know how amazing it felt when I got to hold him for the first time and how much my heart fills with joy every time I see his beautiful face, and I just want to give someone else the opportunity to feel the way I do... there is are honestly no words or ways that I could describe what the love of between a child and parents actually feels like.
Reproduction history:	One son and no donations as yet.
